## DETAILED ACTION

### *Claim Objections*

1. Claim 28 is objected to because of the following informalities: Claim 28 depends from canceled claim 1. It appears that this claim should be canceled. Appropriate correction is required. Note, Claim 28 is different from claim 28 filed with the preliminary amendment of 04 Nov. 1999. Claim 28 was filed in the preliminary amendment filed 21 May 1999. In view of this claim, claims 28-79 of the 04 Nov. 1999 has to be renumbered as claims 29-80.

### *Double Patenting*

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 29-41 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-33 of U.S. Patent No. 5,935,846. Although the conflicting claims are not identical, they are not patentably distinct from each other because instant claims 29-41 are broader in scope than claims

Art Unit: 1744

1-33 of the patent. The instant claims employ the transitional language "comprising" which is inclusive. The instant claims include the positively recited elements of the device and any other elements not specifically recited such as those recited in the claims of the patent and encompass the inventions of claims 1-33 of the patent. The instant application is not associated with an administrative delay that would have prevented applicants from obtaining a patent on the instant claims. As a result, issuance of the instant claims would provide an unjustified timewise extension of the patent claims.

Note the Examiner recognizes applicants' intention to file a terminal disclaimer upon receipt of notice of allowable claims.

#### ***Allowable Subject Matter***

4. Claims 42-80 are allowed.

#### ***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 1744

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
